

LEARNING SUPPORT

The Learning Support Centre offers additional tuition to all pupils requiring extra support with their studies. Our specialist teachers include three Mathematics teachers.

We offer full teaching programmes for dyslexic pupils and support pupils with long and short-term memory problems and those with poor organisational skills. Study skills and examination techniques can often be taught in a few sessions.

ENGLISH AS AN ADDITIONAL LANGUAGE

We also offer courses and programmes in English as an Additional Language (E.A.L), where pupils have the opportunity to gain internationally recognised qualifications in English. In the Sixth Form these include preparation for the IELTS qualification which is required for entrance to most UK universities, and SATS and TOEFL for entrance to US universities. Mrs Felicity Pattenden, Head of this department is contactable via email at fpattenden@clayesmore.com .
